

# Samsara Inc. (NYSE: IOT): Interview Candidate Orientation Brief

## 1. What They Do: Connected Operations Cloud and Product Portfolio

Samsara Inc. provides the Connected Operations Cloud, an end-to-end Internet of Things (IoT) hardware and software platform that ingests, aggregates, and enriches data from physical operational assets—such as commercial vehicle fleets, machinery, trailers, and facility sites—to deliver real-time operational visibility, workflow automation, and AI-driven analytics<sup>1</sup>. The platform acts as a system of record for physical operations, enabling organizations to improve safety, operational efficiency, and environmental sustainability<sup>1</sup>.

The architecture combines a cloud-native Data Platform that ingests trillions of data points annually with domain-specific Applications and edge-deployed AI Agents<sup>1</sup>. Samsara monetizes this platform through a recurring subscription model across six distinct product lines, pairing enterprise software with proprietary hardware devices<sup>2</sup>:

- **Video-Based Safety:** Cloud-connected dash cameras utilize edge artificial intelligence to analyze driving behavior in real time, detecting hazards such as distracted driving and tailgating while providing automated driver coaching<sup>2</sup>. Hardware paired: Dual-Facing Dash Camera (Model Identifier: HW-CM32)<sup>9</sup>.
- **Vehicle Telematics:** Real-time GPS tracking, engine diagnostics, fuel management, routing, and automated regulatory compliance tools for commercial vehicle fleets<sup>2</sup>. Hardware paired: Vehicle IoT Gateway (Model Identifier: HW-VG54-NA / HW-VG54-NAH)<sup>9</sup>.
- **Equipment Monitoring & Asset Tracking:** Location tracking, engine-hour utilization metrics, and temperature monitoring for unpowered assets, heavy machinery, and cold-chain transport<sup>2</sup>. Hardware paired: Powered Asset Gateway (Model Identifier: HW-AG52, AG26) and Environmental Monitors (EM series, e.g., EM11/EM21)<sup>6</sup>.
- **Site Visibility:** Cloud-connected security camera infrastructure and AI vision analytics designed to secure fixed locations, warehouses, and remote operational sites<sup>2</sup>. Hardware paired: Site Gateways (SG series) and Security Cameras (SC series)<sup>9</sup>.
- **Apps and Driver Workflows:** A mobile software app suite enabling field personnel to complete electronic Driver Vehicle Inspection Reports (DVIRs), document capture, electronic logging, and routing natively on mobile devices<sup>2</sup>. Hardware paired: Display Monitors (HM series) and Wireless I/O Modules (WM11) paired with commercial smartphones or tablets<sup>9</sup>.
- **Industrial Equipment Monitoring:** Connects directly to legacy industrial machinery, Programmable Logic Controllers (PLCs), and SCADA control systems to stream operational telemetry into the cloud platform<sup>12</sup>. Hardware paired: Industrial Gateways

(Model Identifiers: IG15, IG41)<sup>9</sup>.

| Product Line          | Primary Operational Function         | Hardware Paired                 | Model Identifier                   |
|-----------------------|--------------------------------------|---------------------------------|------------------------------------|
| Video-Based Safety    | AI safety analysis & driver coaching | Dual-Facing Dash Camera         | HW-CM32 <sup>10</sup>              |
| Vehicle Telematics    | GPS, engine diagnostics & ELD        | Vehicle IoT Gateway             | HW-VG54-NA <sup>10</sup>           |
| Equipment Monitoring  | Asset tracking & temperature logs    | Powered Asset Gateway / Sensors | HW-AG52 / EM-series <sup>6</sup>   |
| Site Visibility       | Cloud video security & facility AI   | Site Gateway / SC Camera        | SG-series / SC-series <sup>9</sup> |
| Apps & Workflows      | Mobile workflows, DVIR & routing     | Wireless I/O Module / Displays  | WM11 / HM-series <sup>9</sup>      |
| Industrial Monitoring | SCADA / PLC control system links     | Industrial Gateway              | IG15 / IG41 <sup>12</sup>          |

## 2. Who Is the Customer: Segmentation, Buyer Personas, and Regional Differences

Samsara sells exclusively to asset-heavy industries in physical operations, a sector representing roughly 40% of global gross domestic product<sup>3</sup>.

### Industry Verticals

Target industries include Transportation & Logistics, Construction, Utilities & Energy, Government & Public Sector, Field Services, Manufacturing, Food & Beverage, and Agriculture<sup>2</sup>. Samsara does not publicly disclose exact revenue or customer-count percentage weightings per individual industry vertical in its SEC Form 10-K filings (flagged as unverified due to lack of public breakdown)<sup>1</sup>.

### Customer Size Definitions

Samsara categorizes its customer base using specific Annual Recurring Revenue (ARR) thresholds<sup>1</sup>:

- **Core Customer:** Redefined in the fiscal year ending January 31, 2026, as accounts generating **\$25,000 or more in ARR<sup>4</sup>**. Under the former definition (customers generating >\$10,000 ARR), Samsara tracked over 23,000 core customers representing ~94% of total ARR as of January 31, 2026<sup>4</sup>.
- **Enterprise Customer:** Defined as accounts generating **\$100,000 or more in ARR<sup>1</sup>**. As of February 1, 2025, approximately 55% of total company ARR originated from this tier<sup>1</sup>.
- **Large Enterprise / Strategic Accounts:** Accounts generating **\$1,000,000 or more in ARR**, contributing over 20% of total ARR as of Q2 FY2026 (ended August 2, 2025)<sup>15</sup>.

## Buyer Personas

- **Signers (Economic Buyers):** Chief Operating Officers (COOs), VPs of Operations, VPs of Fleet/Safety, Chief Information Officers (CIOs), and Chief Risk Officers who control capital budgets and seek unified operational reporting<sup>2</sup>.
- **Daily Users:** Fleet managers, dispatchers, safety directors, site supervisors, maintenance leaders, and frontline drivers/operators<sup>2</sup>.
- **Blockers:** Information Security and IT teams (assessing cybersecurity standards, data privacy, and API integrations), Labor and Union representatives (objecting to in-cab driver monitoring or surveillance), and Procurement managers enforcing budget caps<sup>2</sup>.

## UK and Ireland vs. US Customer Mix

In the US market, telematics purchasing is heavily driven by Federal Motor Carrier Safety Administration (FMCSA) Electronic Logging Device (ELD) mandates<sup>6</sup>. In the UK and Ireland, buyer adoption is tailored around EU/UK drivers' hours regulations, digital tachograph management, and daily walkaround vehicle checks<sup>8</sup>. Regarding discrete percentage vertical breakdowns or customer-count weightings specifically for the UK and Ireland, *no UK-specific data found* in public SEC filings or corporate investor materials<sup>16</sup>. Geographically, the US accounts for **85.6%** of Samsara's total revenue, while international operations (led by the UK and Europe) account for the remaining **14.4%** as of FY2026 disclosures<sup>2</sup>.

## 3. What Problem They Solve: Value Proposition and Quantified Customer Impact

Samsara positions its platform as the operational system of record that transforms physical operations through real-time field data and AI analytics<sup>1</sup>. Physical operations traditionally rely on disconnected point solutions, leading to operational blind spots, excessive vehicle crashes, rising commercial insurance premiums, high fuel consumption from excessive idling, manual paper compliance burdens, unplanned equipment downtime, and asset theft<sup>2</sup>.

### Samsara Self-Reported Metrics (FY2025 Aggregate Disclosures)

Across its global deployment, Samsara claims its platform enabled customers in FY2025 to achieve the following operational benchmarks:

- Prevented **250,000 traffic accidents<sup>3</sup>**.

- Digitized **300 million manual paper workflows**<sup>3</sup>.
- Saved **3 billion pounds (~1.36 billion kg) of CO2 emissions**<sup>3</sup>.
- Saved **990.7 million liters of fuel** across 90 billion driven miles<sup>21</sup>.

## Verified Customer Case Studies and Third-Party Figures

Specific client case studies and external government evaluations demonstrate quantified operational improvements:

- **SafeDriver ennoo**: Verified a **40% reduction in risky driving behaviors** and a **60% reduction in speeding violations**<sup>8</sup>.
- **Hövels**: Documented up to **€25,000 in direct accident-related cost savings**<sup>8</sup>.
- **FMC Haulage**: Reduced customer invoice queries by **70%** via automated proof-of-delivery workflows<sup>8</sup>.
- **Mulgrew Haulage**: Reduced drivers' hours compliance infringements by **20%** using integrated tachograph tools<sup>8</sup>.
- **Baltimore County Fleet Efficiency Report**: A third-party local government evaluation documented that telematics-monitored electric vehicles cut fleet maintenance costs by **two-thirds (66%)** compared to traditional internal combustion engine fleet vehicles<sup>22</sup>.

## 4. How Big and How Fast: Financial Scale and Growth Metrics

Samsara reports financial performance on a fiscal calendar ending on the Saturday nearest January 31<sup>1</sup>.

### Key Financial and Operational Performance

- **Annual Recurring Revenue (ARR)**: Reached **\$1.640 Billion** in Q2 FY2026 (ended August 2, 2025), representing **30% YoY growth**<sup>15</sup>. Full-year FY2026 closed at **\$1.9 Billion in ARR**, growing **30% YoY** in constant currency<sup>23</sup>.
- **Quarterly and Annual Revenue**: Reported **\$391.5 Million** in revenue for Q2 FY2026 (ended August 2, 2025), up **30% YoY** (31% in constant currency)<sup>15</sup>. Full-year FY2026 revenue guidance was set at **\$1.574 Billion to \$1.578 Billion** (26% YoY growth)<sup>15</sup>.
- **Customer Count**: Enterprise customers generating >\$100,000 in ARR reached **2,771** in Q2 FY2026 (up 35% YoY)<sup>15</sup>, expanding to **3,194 customers** by the end of FY2026<sup>23</sup>. Accounts generating >\$1,000,000 in ARR exceeded **190 customers**, contributing over 20% of total ARR as of Q2 FY2026<sup>15</sup>. Total core customers under the historic >\$10k ARR definition exceeded 23,000 as of January 31, 2026<sup>4</sup>.
- **Net Revenue Retention (NRR)**: Stood at **115%** as of recent FY2026 reporting periods<sup>19</sup>.
- **Profitability Status**:
  - **GAAP Operating Loss**: Reduced to **\$(26.6) Million** (-7% margin) in Q2 FY2026, compared to \$(58.2) Million (-19% margin) in Q2 FY2025<sup>15</sup>. Samsara achieved annual GAAP profitability during FY2026<sup>23</sup>.
  - **Non-GAAP Operating Income**: Generated **\$59.7 Million** (15% Non-GAAP operating

margin) in Q2 FY2026, up from \$17.6 Million (6% margin) in Q2 FY2025<sup>15</sup>.

- **Free Cash Flow:** Adjusted Free Cash Flow reached **\$44.2 Million** (11% margin) in Q2 FY2026<sup>15</sup>.
- **Headcount:** Employed more than **3,500 full-time employees** as of February 1, 2025 (disclosed in FY2025 Form 10-K)<sup>1</sup>.
- **International / Geographic Revenue Share:** US revenue represents **85.6%** of total revenue, placing the international share at **14.4%**<sup>19</sup>. A standalone, isolated EMEA-only percentage revenue breakdown is not separately disclosed in SEC filings (flagged as unverified)<sup>1</sup>.

| Metric                                | Q2 FY2026 Value<br>(Ended Aug 2,<br>2025) | Prior Year Value<br>(Q2 FY2025)          | YoY Growth /<br>Change      |
|---------------------------------------|-------------------------------------------|------------------------------------------|-----------------------------|
| <b>Annual Recurring Revenue (ARR)</b> | \$1,640.1 Million <sup>15</sup>           | \$1,264.0 Million <sup>15</sup>          | +30% YoY <sup>15</sup>      |
| <b>Quarterly Revenue</b>              | \$391.5 Million <sup>15</sup>             | \$300.2 Million <sup>15</sup>            | +30% YoY <sup>15</sup>      |
| <b>Customers &gt;\$100k ARR</b>       | 2,771 customers <sup>15</sup>             | 2,120 customers <sup>15</sup>            | +35% YoY <sup>15</sup>      |
| <b>Non-GAAP Operating Margin</b>      | 15% (\$59.7M) <sup>15</sup>               | 6% (\$17.6M) <sup>15</sup>               | +9 pts <sup>15</sup>        |
| <b>Adjusted Free Cash Flow</b>        | \$44.2 Million (11% margin) <sup>15</sup> | \$13.1 Million (4% margin) <sup>15</sup> | +7 pts margin <sup>15</sup> |

## If You Only Remember Five Facts

- Samsara closed FY2026 with \$1.9 Billion in ARR, sustaining a 30% year-over-year constant-currency growth rate<sup>23</sup>.
- The Connected Operations Cloud combines enterprise cloud software with custom hardware, such as the HW-VG54 Vehicle Gateway and HW-CM32 Dash Cam<sup>7</sup>.
- Enterprise accounts generating over \$100k ARR expanded 29% YoY to 3,194 customers at FY2026 end, underpinning a 115% Net Revenue Retention rate<sup>19</sup>.
- Operational ROI is validated by customer case studies showing a 40% reduction in risky driving behaviors and a two-thirds maintenance cost reduction for telematics-managed electric vehicles<sup>8</sup>.
- The business generates a 15% Non-GAAP operating margin with over 3,500 employees,

deriving 85.6% of its revenue from the US market<sup>1</sup>.
