Product-minded commercial specialist with 7 years shipping internal products and B2B growth across Apple, Bank of China and Huawei, now owning portfolio and commercial strategy for a pan-European telecom operator group. A trilingual English/Cantonese/Mandarin bridge between APAC headquarters and EMEA enterprise customers across presales, RFP response, pricing and go-to-market. Hands-on AI builder who ships LLM and RAG products end to end.

WORK EXPERIENCE

Huawei Technologies

London, United Kingdom

Portfolio Solutions & Commercial Sales Specialist

May 2026 – Present

- Own portfolio solutions and commercial strategy, leading account team for a pan-European telecom operator group spanning 5 country markets, translating China HQ product roadmaps into regional strategy in English and Mandarin.
- Co-authoring the regional fixed wireless broadband business development roadmap with the European product lead, aligning HQ product lines with operator demand across 5 markets.
- Support group-level bid responses and pricing analysis, coordinating a cross-functional squad of account managers, channel GTM operations and technical architects.

Bank of China

Hong Kong

Product Analyst — BOC Pay & e-Banking Platform

Sep 2023 – Oct 2024

- Delivered 100% of HKMA regulatory mandates inside a strict 14-day window by translating regulation into a technical implementation plan and orchestrating internal teams and third-party vendors to ship Geo-IP fraud detection with Impossible Travel logic.
- De-risked the BOC Pay launch across 4 global regions and saved 15 man-days of project budget by designing a follow-the-sun, 24-hour synchronised UAT plan and leading a 3-person analyst team through delivery.
- Recovered 1,000+ hours per year of cross-functional capacity across 50+ teams by deploying a centralised Grafana observability framework that retired 50+ manual weekly reporting touchpoints.
- Drove adoption of the observability framework by presenting live demos to 30+ system leads and department heads, resolving 80% of technical queries in the first session.
- Cut 15 man-days of vendor-evaluation churn by converting fragmented infrastructure needs into a MoSCoW-prioritised vendor roadmap validated through a Red Hat proof of concept.

Apple

Hong Kong

Operations Strategy Analyst

Jul 2021 – Aug 2023

- Protected 100% operational uptime and sustained a 92 NPS through the EasyPay POS migration by leading 10+ Floor Champions with floor-level execution playbooks.
- Influenced the Shanghai development team to shift from centralised demo training to store-specific delivery by presenting evidence that operations varied across locations.
- Eliminated ~1,500 manual hours per year across 6 flagship stores by shipping a self-sustaining reporting architecture that gave regional directors real-time labour insights.
- Drove adoption across all 6 flagship stores by walking every store leader through the tool via live demo, then handing over operational ownership with a fallback plan.
- Recovered 400+ leadership hours per year by diagnosing an 8-hour weekly productivity drain and shipping a zero-to-one digital ticketing system adopted store-wide.

Apple

Hong Kong

Business Development, Corporate Solutions

Aug 2019 – Jul 2021

- Shifted the B2B team from reactive tracking to proactive account retention by building diagnostic models across a 50+ account portfolio, isolating 12+ root causes of missed revenue.
- Removed peak-time scheduling conflicts for a 200+ person workforce and recovered 5 hours of weekly floor-planning effort by building a capacity planning tool mapping staffing against customer traffic.

EDUCATION

University of Exeter

Exeter, United Kingdom

Master of Business Analytics

Aug. 2024 – Dec. 2025

- **Merit** (Top 10% of graduating class)
- **Relevant Coursework (Top 5% of graduating class):** AI Governance & Predictive Risk Engine. Reducing False Positives by 24% through an optimised machine learning model auditing algorithmic decision-making.

Hang Seng University Hong Kong

Hong Kong

Bachelor of Communication Technology
