Agostino Ruberto

Director of Group Technology Solutions at CKHH Innovation Opportunities and Development
Rome, Latium, Italy

Summary

A highly motivated executive with proven technical, strategic and leadership skills gained through 25+ years of experience in the mobile communications managing several projects ranging from the startup of H3G Italy to new technologies like 3G (first UMTS phone in Europe), 4G, 5G, DVB-H, Skype/Facebook Phone, Group Digital Hub and NW API monetization (Camara). I coordinate the Cyber Security activities across the 11 Telco OpCos inside CKH. I manage C - Level relationships with the major services companies such as Apple, Google, Amazon, Facebook, Netflix and ODM companies such as Apple, Samsung, Sony, Nokia, Huawei, etc. I'm managing also Oracle projects for the Telco BUs.

Currently I'm Director of Global Technology Solutions at Hutchison, responsible for detecting opportunities for new business, outside of mainstream activities, involving completely new product/service and/or revisited business model. Identify disruptive innovations, representing threats or opportunities on core business, and then, design and develop future technology architectures for the group, discussing strategic scenarios with business units, OPCOs and Industries. I coordinate the Cyber Security activities across the CKH OpCos and I manage the overall delivery process from device and platform specification and architecture down to acceptance and the performance management of the group solutions as well as the operations of CKH apps and platforms including Group Digital Hub, Group MVNO platform, Big Data platform, Oracle, eSIM infrastructure and Mobile Financial Services.

Specialties: Board Level Negotiation • Cyber Security • Global Business Development • Market Trends • Executive Relations • Start-Ups • Mobile Telecommunications • Handsets Market • Relationship Building • Technology Solutions • Program Management • Innovation • Products & Services

Experience

3 Innovation Opportunities and Development

Director of Group Technology Solutions

October 2017 - Present (8 years 10 months)

Director, Global Technology Solutions & Member of the Board, 3IOD – CK Hutchison

Leading AI, Cyber Security and enterprise platform transformation at Group level across CKH OpCos.

- Define and drive Group-wide technology and transformation strategy, focusing on cost optimisation, scalability, and operating model evolution
 - Lead AI-driven transformation initiatives to enable automation and efficiency at scale
 - Define and govern Cyber Security strategy, ensuring resilience and security-by-design across platforms and services
 - Lead the Oracle Group Single Instance programme, driving migration from on-premise to cloud and adoption of Oracle Fusion across European Telcos
- As Board Member of 3IOD:

- Define Group Digital strategy and act as end-to-end design authority for platforms, products, and services
- Provide architectural governance and oversee managed service partners

Responsible for key Telco platforms:

- Digital Hub, MVNO, eSIM, Mobile Financial Services

Drive Big Data monetisation and Group standardisation across devices, network, and platforms.

Manage executive relationships with global technology partners (NVIDIA, Microsoft, Oracle, Apple, Google, Amazon, Meta, Netflix, etc).

HWL

Technical Director at HWL Devices and Internet partnerships Group

May 2008 - October 2017 (9 years 6 months)

Rome Area, Italy

Reporting to the HWL 3G Devices and Internet Partnerships team General Manager for the global activities and to the H3G Italy CTO for the local activities.

Responsible for digital innovation inside the HWL Group and 3ITA, developing internal apps and services and coordinating PoCs and commercialization in the OPCOs. The team is responsible for devices and services design, program management and technologies activities for the Hutchison Telecommunication Group and 3ITA. It consolidate OpCos main requirements for devices and

eSIM and it is in charge of devices and services design, program management and testing activities.

Successes include delivery of one of the first Digital Hub for OTT across the telecom industry in Europe with 6 OPCOs integrated. Push platform launched in all the European OPCOs except DK. Developed in house applications that are live in many OPCOs including Italy, UK and Indonesia with more than 1 Mln active users. Tier 1 for Apple thanks to the high number and quality of defects detected and to the close relationship with their Global technical team.

H3G

Engineering & Defect Management Director

July 2001 - March 2008 (6 years 9 months)

Rome

Established personally with about 25 resources was responsible for global management of all technical aspects, such as scouting, technology, specification and defect management. The team has generated some patents owned by HWL
