Inclusivity, equality, service, and community aren't just buzzwords—they are the foundation of Langar and key pillars of Sikhism.

I'm incredibly proud of my wife for her work with this new initiative.

At its core, Langar is a 500-year-old tradition of providing free meals to anyone, regardless of background, religion, or status. In a world that often feels divided, this practice of sitting together as equals is more relevant than ever.

She's currently gathering insights across our community to help drive for inclusion for all especially those that are living with a medical diagnoses such as food allergies.

If you have a moment, I'd appreciate it if you could complete the survey below. Your input helps keep the spirit of Seva growing!
