Business Cases

Early-Stage Market: Carrier O Tunisia Developed 5G FWA Quickly via HUAWEI High Performance Devices & Game Acceleration to Outperform Competitors and Expand Market Share

按需取用

Market Analysis

2025 is the first year for Tunisia to launch 5G FWA services. Carrier O aims to regain 2nd place in the market with 5G FWA service launch.

Carrier O's 5G Spectrum

Pain Points

- High market homogeneity → require value-added services to compete with others
- Severe market competition → require 2C support, retail, MKT, etc. to increase SO

Huawei Solutions

01

Optimal Product Proposal

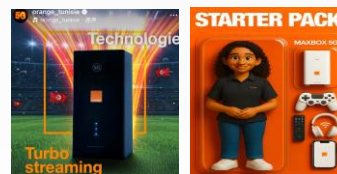

Launch 2CC products which are optimized for O's network spectrum resources

02

APP Acceleration Feature

Game turbo, video turbo as special value added service

03

Joint Marketing Campaign

Leverage trending events with special editions to enhance SO

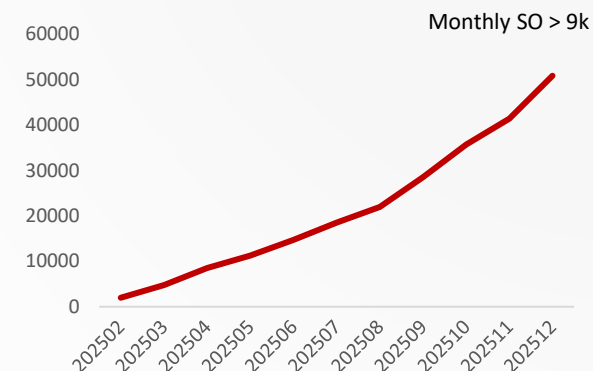

Africa Cup
MKT Campaign

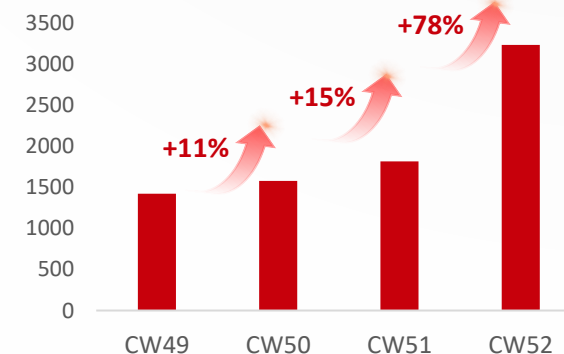

Business Achievements

5G FWA User Rapid Growth

Accumulated developed users

SO Increase driven by MKT campaign

Emerging Market: With HUAWEI High Quality & Performance Products Carrier U Malaysia Effectively Reduced Service Costs and Improved Customer Satisfaction

按需取用

Market Analysis

Carrier U’s fixed network & 4G FWA growth restricted: No proprietary fixed network, inadequate 4G sites with poor coverage and experience.

Market Share	No.1	No.2	No.3
FTTx			
4G FWA			

So in the 5G era carrier U pivots strategic focus to 5G FWA expansion.

5G FWA Pain Points after Launch

- 1. High return rate, high after-sales costs.
- 2. Poor signal, poor network experience, mass customer complaints.

Huawei Solutions

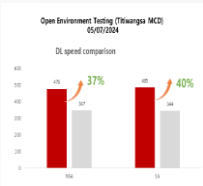

01 Excellent Quality
Help carrier sharply drop FFR and save costs.

02 Ultra Performance

+30%↑

High gain antenna
User coverage +30%

03 2C Capabilities Support
Display, MKT, sales support improve SO and accelerate number allocation.

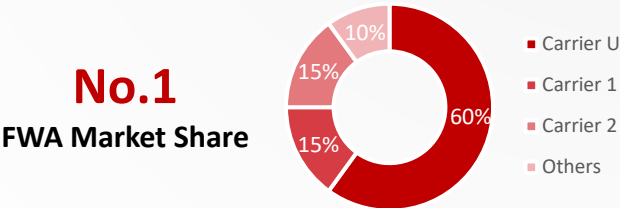

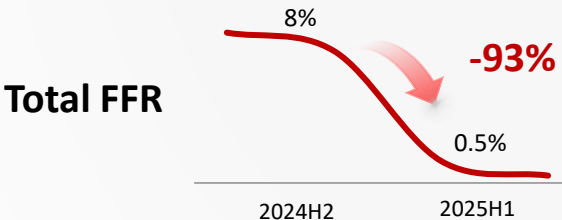

04 Value-added Features to Increase User ARPU

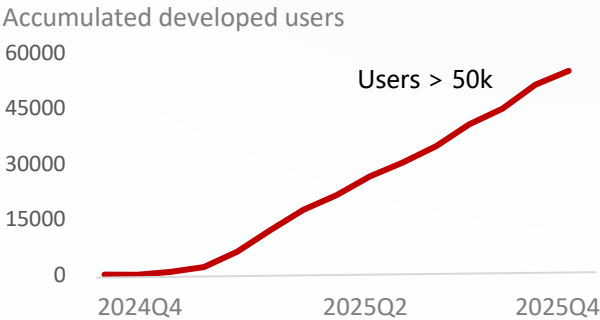

APP turbo, eSIM, AI Life, CMF customization etc.

Business Achievements

5G FWA User Rapid Growth

5.5G Migration: Carrier Z Kuwait Launched Multi-Tier 5.5G Tariff Packages with Huawei CPE Solutions to Drive High-Value User Migration and ARPU Growth

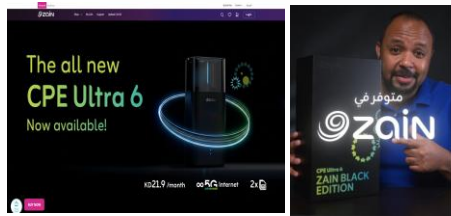

按需取用

The First Carrier in the Gulf Region Launching 5.5G CPE

01 Launch tiered 5.5G tariff packages with Huawei extensive product portfolio

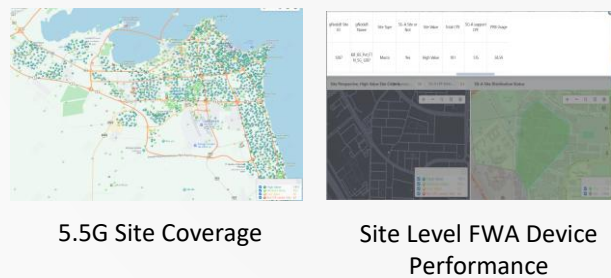

02 Joint Marketing to promote 5.5G services

CPE Ultra 6 Dedicated 5.5G Package, targeting premium users

03 Huawei Smartcare platform enables operators to develop users accurately

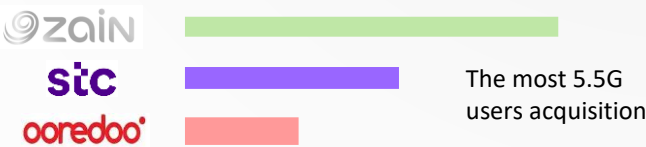

Site No.XXX target user			
User	priority	Device model	Pain point
A	S	CPE Pro 2	Speed
B	A	CPE Pro 2	Package vol.
C	A	CPE Pro 3	Coverage
.....			

Pre-expiry contract users identification, pain point analysis & 5.5G conversion proposal customization

Business Achievements

ARPU +30%
5G to 5.5G

5.5G FWA Users Rapid Growth

FWA market share No.1 with high ARPU

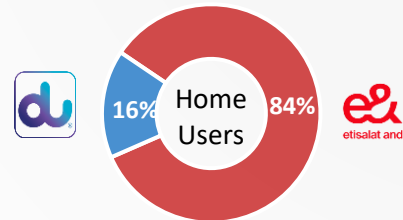

Operator	FWA Users Share	FWA Value Share
	35%	54%
Operator 1	33%	28%
Operator 2	32%	18%

Fixed-Mobile Convergence Solution: UAE Top 1 Carrier E Captures Home Broadband Market Share with Huawei High-Performance Devices and Dual-WAN Features

按需取用

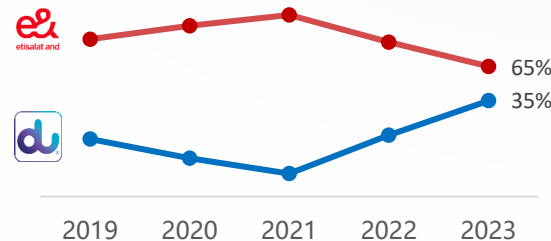

Market Analysis

As **top 1 operator** in the UAE, carrier E dominated the home network market with 84% market share in 2021.

Market Challenges Emerge

From 2022, E's home market share dropped sharply, challenged by Carrier D which launched the "5G FWA No.1" campaign. Lacking of attractive 5G FWA service, E suffered severe user loss.

Huawei Proposal

01

Launch 5G FWA products

Support E to launch high-performance 5G FWA products quickly to win back users.

02

Hybrid solution

Synergetic development of FWA and fiber. Deploy 5G FWA in areas not covered by fibers as a complement solution, and convert the CPE into a router to expand the home coverage after fiber deployment.

Step 1:
5G CPE

Step 2:
Fiber + 5G CPE

Seize the market first

Better experience

- Speed up
- Fixed-line back-up
- Wider home coverage

Greater Business Success

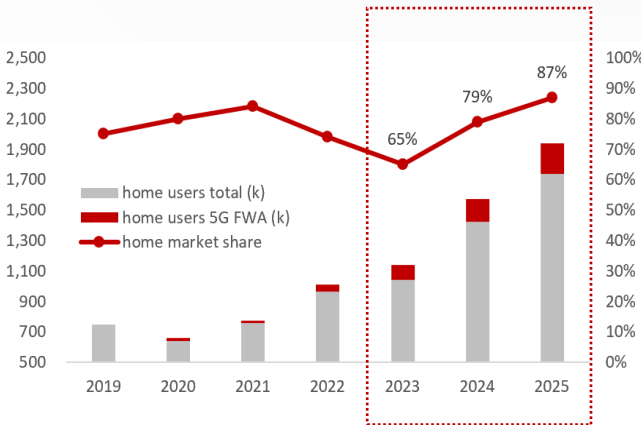

With Huawei 5G FWA solutions, Carrier E pivot to FWA business, fast-tracked user acquisition and broke the historical peak in market share.

65% → 87%

Market Share

YoY 22%+

Home Users

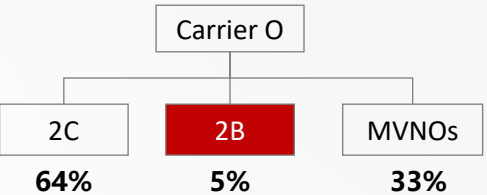

Carrier O Germany Gains Larger Market Share by Expanding MVNO Channels with Huawei Solutions

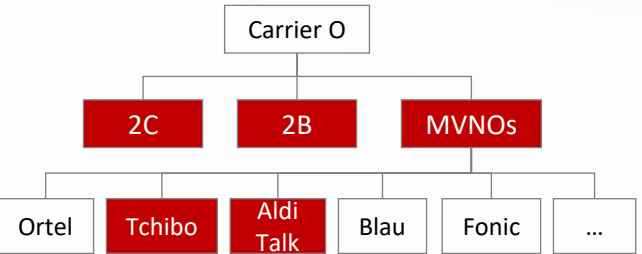

按需取用

Business Background

Carrier O owns many sales sub-channels, a number of MVNO channels are important business drivers for O's mobile services.

For exploring more FWA sales opportunities and developing more users, O expanded the cooperation with Huawei in different channels.

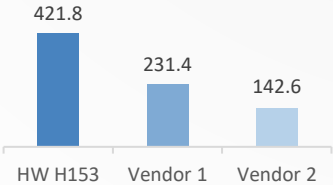

■ Huawei products launched

Cooperation with Huawei

- 01 Bring Huawei into More Channels**
2B/2P/2C from one to more, leveraging Huawei solutions to increase MVNOs' SO.

- 02 Excellent Performance**
High speed and low latency enable O to boost brand image and acquire more users.

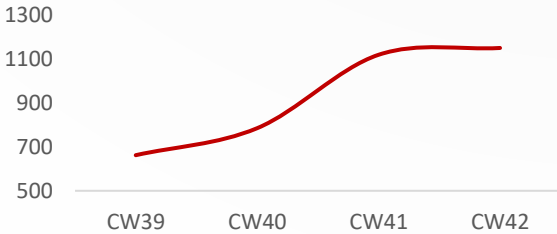

- 03 Customization for Each Channel**
Retail&MKT customization boosts online and offline sales in different channels.

Business Growth

MVNO A Sell out

As the first MVNO launched 5G CPE, A acquires over 1000 subscribers per week.

Carrier Z KSA : Huawei Innovative Solutions Support Z to Gain More FWA Users and Improve ARPU

按需取用

HUAWEI Comprehensive FWA Solution

One-Box Solution

CPE + Router one box, auto-paired, plug & play

Value-Added Service

Game Turbo service

CMF Customization

Exclusive edition
