JBP Overview

Global Partners (GPs) are partners that cooperate with Huawei for business in multiple countries and regions. GPs are the mainstream players in different industries. The cooperation between Huawei and GPs is like Elephant -Elephant Tango, which requires strategic & systematic thinking, detailed planning & efficient execution. To effectively develop & successfully implement a business plan, we propose to divide it in 6 key actions as following:

The Market insight is a key part of developing business plan. It is a vast area consisting qualitative and quantitative assessment of a market to look into the size of the market both in volume and in value, the various customer segments and buying patterns, the competition, and the economic environment in terms of barriers to entry and regulation. We intend to focus here for GP business only. Within GP business, scope of market analysis varies based on Huawei ICT infrastructure products/solutions we want to sell to customers from specific category/industry/region, through which type of partners (e.g., SI/ISV/Industry/CSP/MSP/Consulting or any combination of them) and the final intended objective/outcome of business plan. It is a detailed study aligned with internal organization strategy about products/solutions, drivers of demand for products or solutions and which GPs can help us achieve it.

For GP business, market insight is a continuous exercise to feed right kind of information to develop, execute & course correct effective GP cooperation strategy. There could be multiple outcomes of market insight exercise based on targeted scope e.g., long list of GPs at global & country level, overall GP cooperation business scope, how competitors are doing, growth possibilities, market scope, need & drivers for specific joint solutions/design in, etc.

High level GP insight is done during market analysis stage however a comprehensive GP insight is must to understand the overall partner business, key value propositions, customer base, core capabilities/activities/resources, revenue streams, organization structure, industry verticals, service lines, key business drivers, growth strategies and organization culture. An effective GP insight is key to target right subsidiary organization sservice line, industry verticals, geo regions, teams/stakeholders & solutions/services for design-in, to develop joint business.

Following is an example of one part of GP insight activity where we developed Business Model of Wipro through secondary market research, annual reports & discussion with multiple Wipro teams cutting across hierarchies to build a blue print of their overall business.

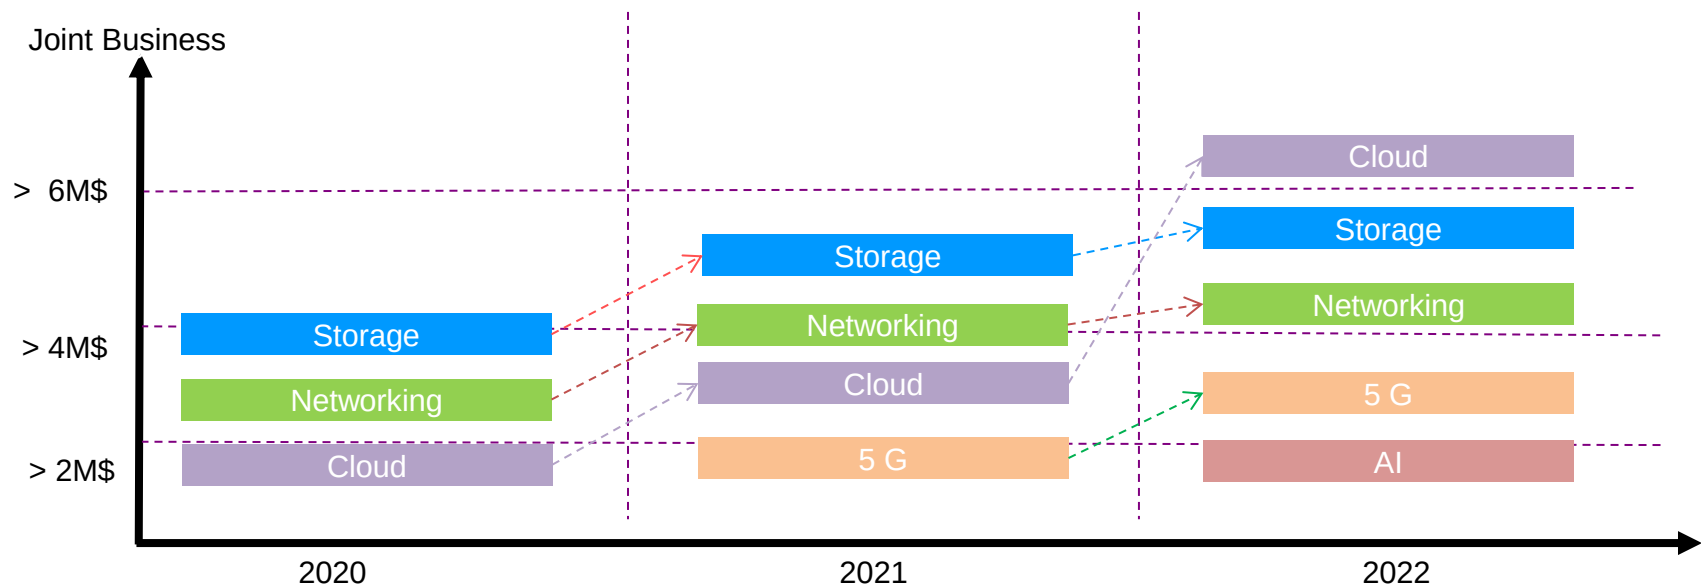

Key Partners	Key Activities	Value Propositions	Customer Relationships	Customer Segments
Technology Alliances Manpower Resource & IT Vendors Technology Acquisitions Resellers Universities	IT Products	Deep Technology Expertise Industry wide experience Portfolio of IT Services Vertically aligned Business model Proprietary products/solutions/AI/Automation tools to delivery better IT services Matured Product Engineering Services	Consultative & major Account Sales & Support Outsourcing Specialization Relationship sustainability	Large corporations SMEs Banking, Financial Services and Insurance Healthcare Consumer Goods Energy, Natural Resources and Utilities Manufacturing Technology Communications Government Network Equipment Providers Transportation Utilities IT Products
	IT Consulting Custom Application Design & Development System Integration Re-engineering & Maintenance Package Implementation CIS Analytics Services Business Process Services			
	Key Resources		Channels	
	Employees Infrastructure Patents Network Solutions CoEs AI & Automation products Brand & Culture		Direct Sales Indirect Sales Marketing & PR	
Cost Structure		Revenue Streams		
Employees Facilities Management & Admin cost Licensing Cost IT Cost Marketing Cost R&D Cost		Annual Outsourcing & Maintenance contracts IT Consulting Services Hardware reselling, installation & maintenance PaaS/SaaS		

Joint Objectives

Joint objectives is the foundation of the cooperation between Huawei and GP. It integrates and complements the advantages of both parties to provide joint value to customers. Based on joint value proposition, via thorough discussion, both teams reach an agreement on the long-term objectives, annual objectives, and related KPIs.

Joint Value proposition

To combine Huawei's leading ICT infrastructure and Wipro's rich industry experience to provide customers with end-to-end products and services.
To make Huawei & Wipro as preferred mutual partners in digital transformation opportunities globally.

Long-term Objectives

Partner	FY2020	FY2021	FY2022
Wipro	8 M\$	12 M\$	20 M\$
Huawei	6 M\$	10 M\$	15 M\$

Joint Objectives

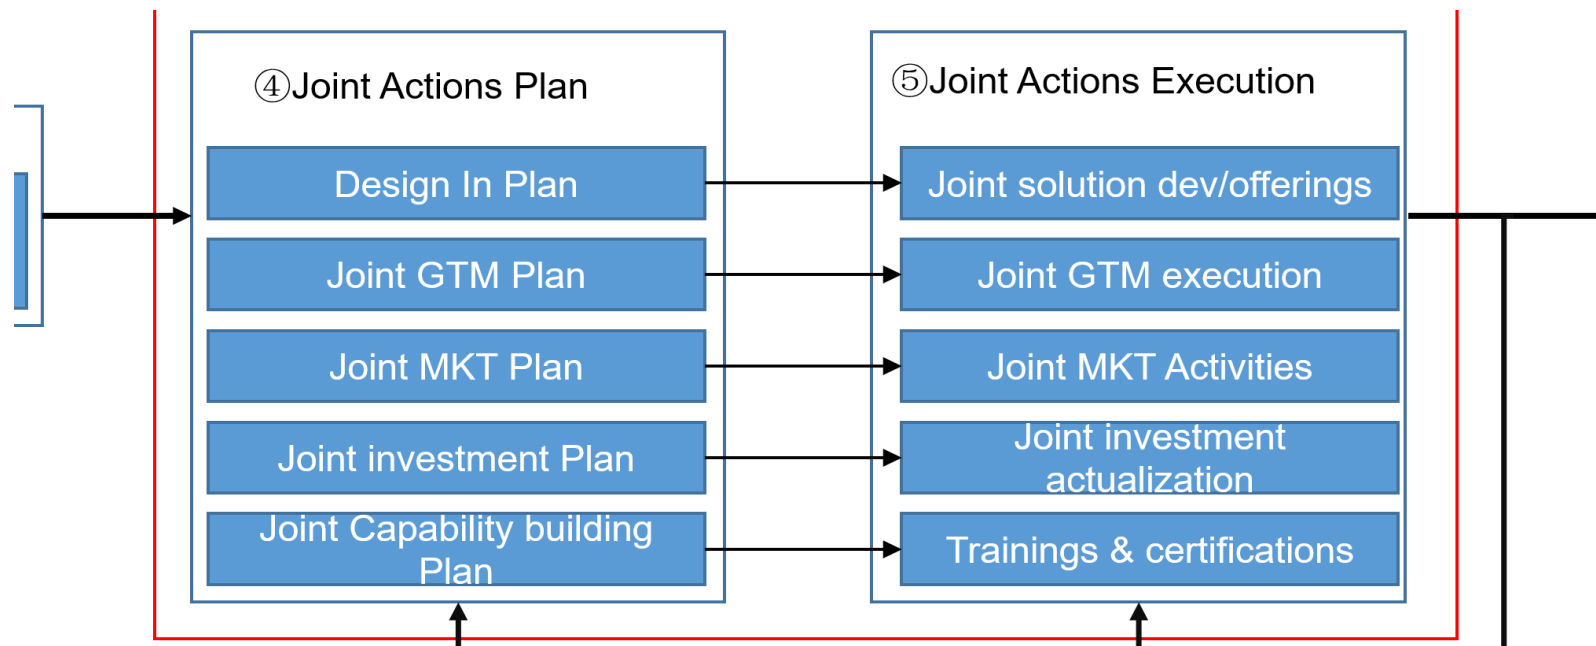

When we come to set up annual targets and KPIs, ‘Huawei inside GP, GP inside Huawei.’ key metrics are good reference, it is not only used to guide the work direction of Huawei GP manager, but also should be communicated with GPs, and then both sides can reach agreement as joint annual KPIs.

Joint Actions Plan/Execution

Joint actions plan and execution are the specific actions at the execution level, includes following five main actions. Other actions can be added if you think they are important to your partner.

Joint Actions Plan/Execution

--Design In

Design in is the way to design Huawei leading ICT infrastructure products into GPs' solutions, to build joint vertical/horizontal offerings. Joint offerings are developed based on the respective advantages of Huawei and GPs, to provide joint offerings (differentiated competitiveness and unique value) to focused industries, customers.

Clearly describe the components of the solution, and the functions and features of each component.

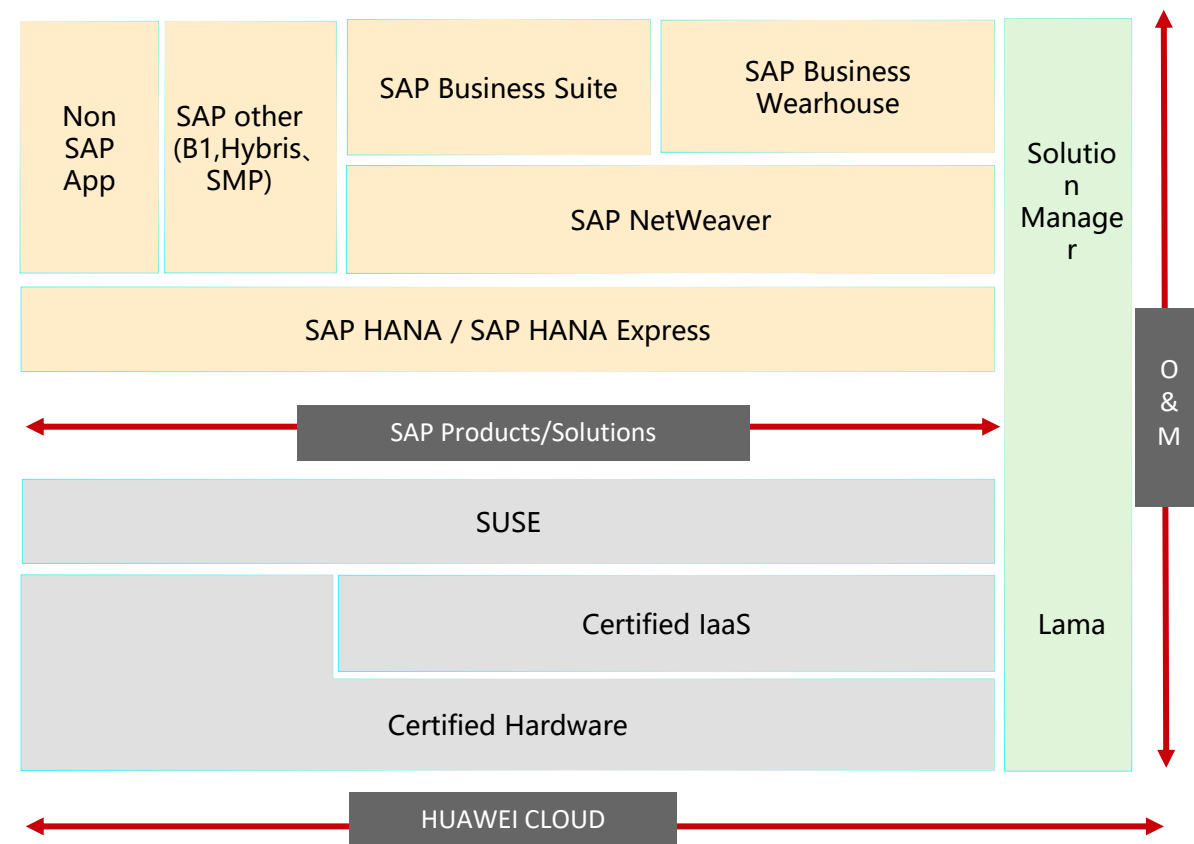

Scope responsibilities : What products and solutions does Huawei or GP provide? What responsibilities does Huawei or GP need to take?

Define focused market regions, industries, and scenarios. Market Analysis & GP Insight information helps build it.

Specify competitor analysis and core differentiated competitiveness.

Solution Overview	Solution 1	Solution 2	Solution 3
Scope responsibility	Huawei: Partner:	Huawei: Partner:	Huawei: Partner:
Targeted Regions	Continental Europe	APAC	MEA
Targeted Verticals	BFSI, Manufacturing	Government, Public Safety	Oil & Gas, Transportation

The photograph shows a modern office interior. On the left, a large wall is decorated with a blue and white hexagonal pattern, resembling a honeycomb or circuit board. In the center of this pattern is the 'SDx@Wipro' logo, with the tagline 'REIMAGINING THE CORE' below it. To the right, a doorway leads to a server room. The server room has a glass door with the 'SDx@Wipro' logo and the tagline 'REIMAGINING THE CORE' on it. The server room is filled with rows of server racks.

Design in

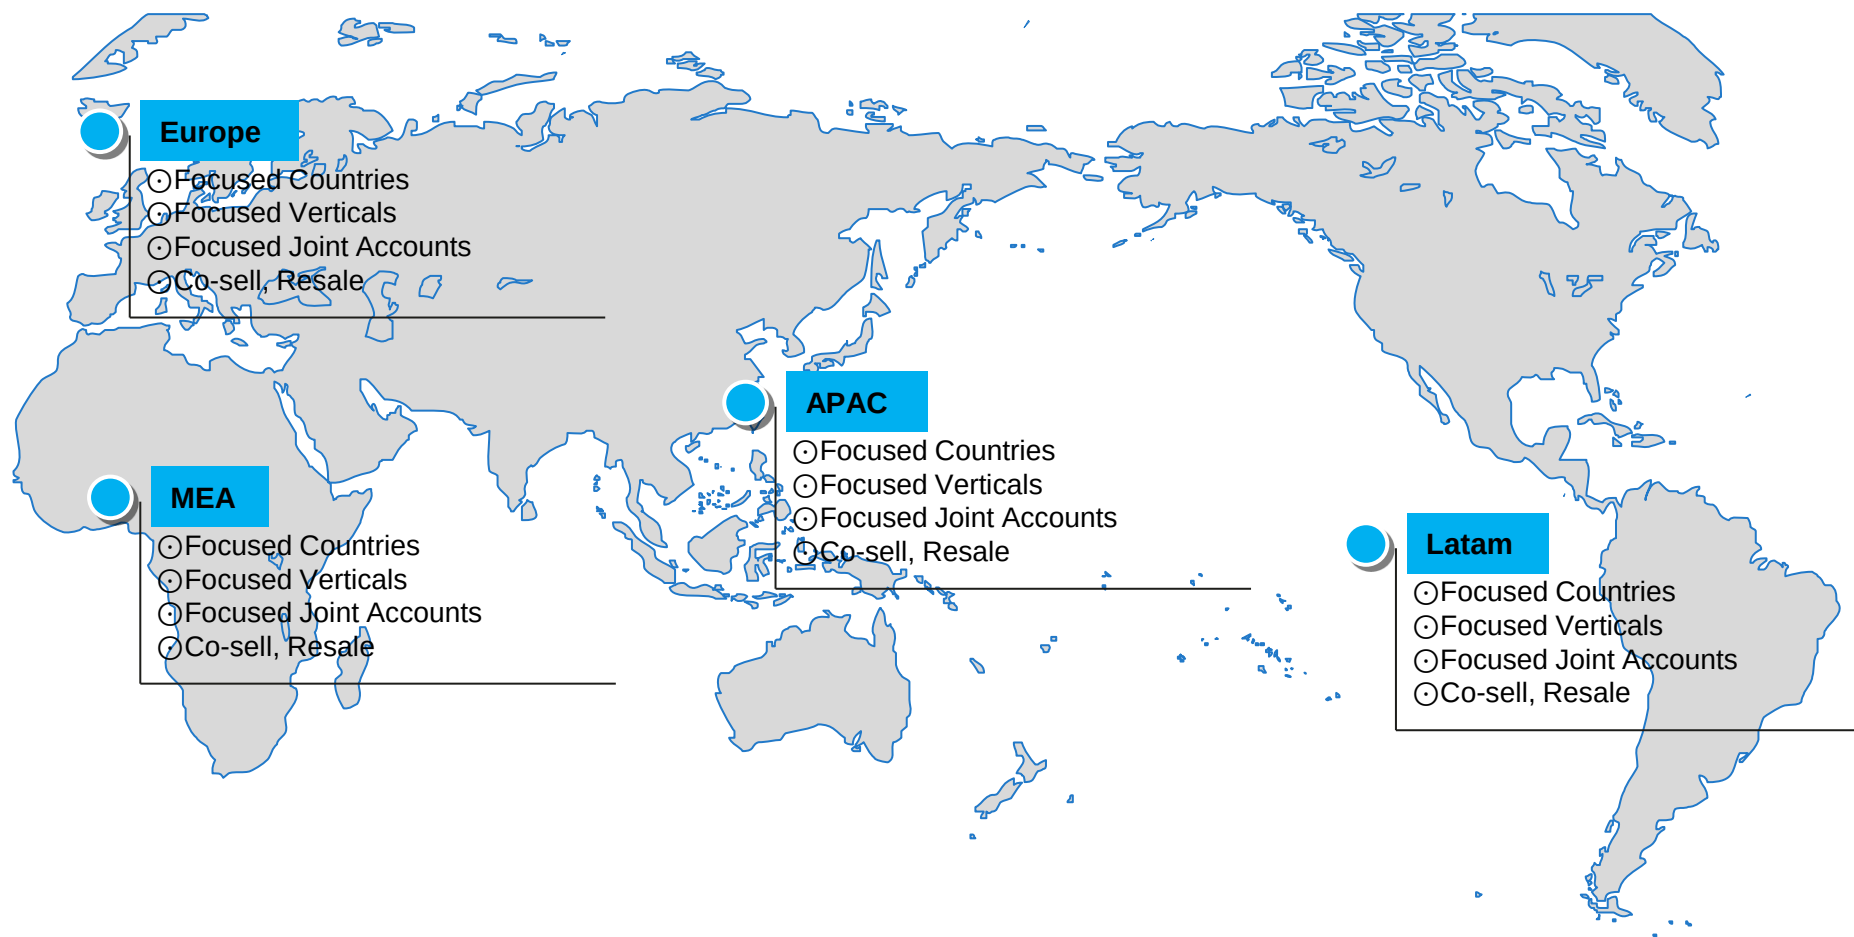

Joint GTM

Joint MKT

Joint Investment

Joint Capability

The joint GTM is based on the value proposition of the joint solutions and to output the focused countries, verticals, accounts and cooperation models in regions. Align with ground front line teams from both parties, to mine potential opportunities.

Joint Actions Plan/Execution

--Joint MKT

Joint MKT can effectively improve Huawei's brand image in focused business verticals through GPs' brand influence. Joint marketing activities include flagship event, 3rd party event, regional event, etc. The following template can be used to make the plan together with GPs.

Type	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
Flagship Event			HDC		Wipro WLC				Huawei Connect			
3rd Party Event		MWC			SAP Sapphire						SCEWC	
Partner Event			Huawei Eco-Partner									
Vertical Event		Huawei FSI Summit	Wipro Delivery Summit									
Regional Event											Huawei Eco-Connect	
Digital Marketing	EDM, WeChat, Linkedin, Facebook, Twitter											

Joint Actions Plan/Execution

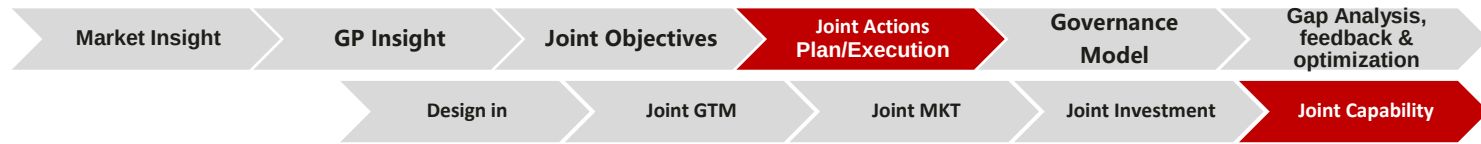

--Joint Investment

During the annual BP discussion, determine the joint investment plan of both parties is a good way to block related budgets in advance. (GPs SPOC need apply for budget at the beginning of FY). Generally, joint investment plan includes below catalogs:

			Reference		
No.	Type	Description	Type	Huawei	Wipro
1	Manpower investment	Alliance Manager, Pre-sales team, Delivery team, etc.	Alliance Manager	2 dedicated alliance manager.	1 dedicated alliance manager
2	Training and enablement	Huawei products pre-sales and post-sales training cost, like training sessions, exam vouchers, etc.	Joint MKT	Invest \$50K as marketing fund, to sponsor Wipro Event and Joint Marketing.	Invest \$50K as marketing fund, to sponsor Wipro Event and Joint Marketing.
3	Entry test	Hardware equipment cost, software licensee cost, engineers, HUAWEI CLOUD voucher, etc.	Joint COE	Invest hardware worth \$100K for Evaluation in Networking /SDx COE	Software\Engineers required for Reference Architectures & Demo setup creation worth \$100K
4	COE	Devices/Software/Applications required by the joint innovation center, exhibition center, integration verification center, and OpenLab;	Capability Development	Invest \$50K as capacity building fund to support Wipro practice/delivery teams' enablement.	Invest 20+ engineers from practice/delivery team, to complete Huawei certification.
5	Marketing activity	Expenses incurred in joint marketing activities, such as marketing/advertising expenses, sponsorship fees for branding activities, and marketing support expenses, etc.	Incentive Fund	Invest FH to support Wipro & Huawei Joint Business in focused regions.	
6	Sales incentive	GPs related Sales performance incentive;			

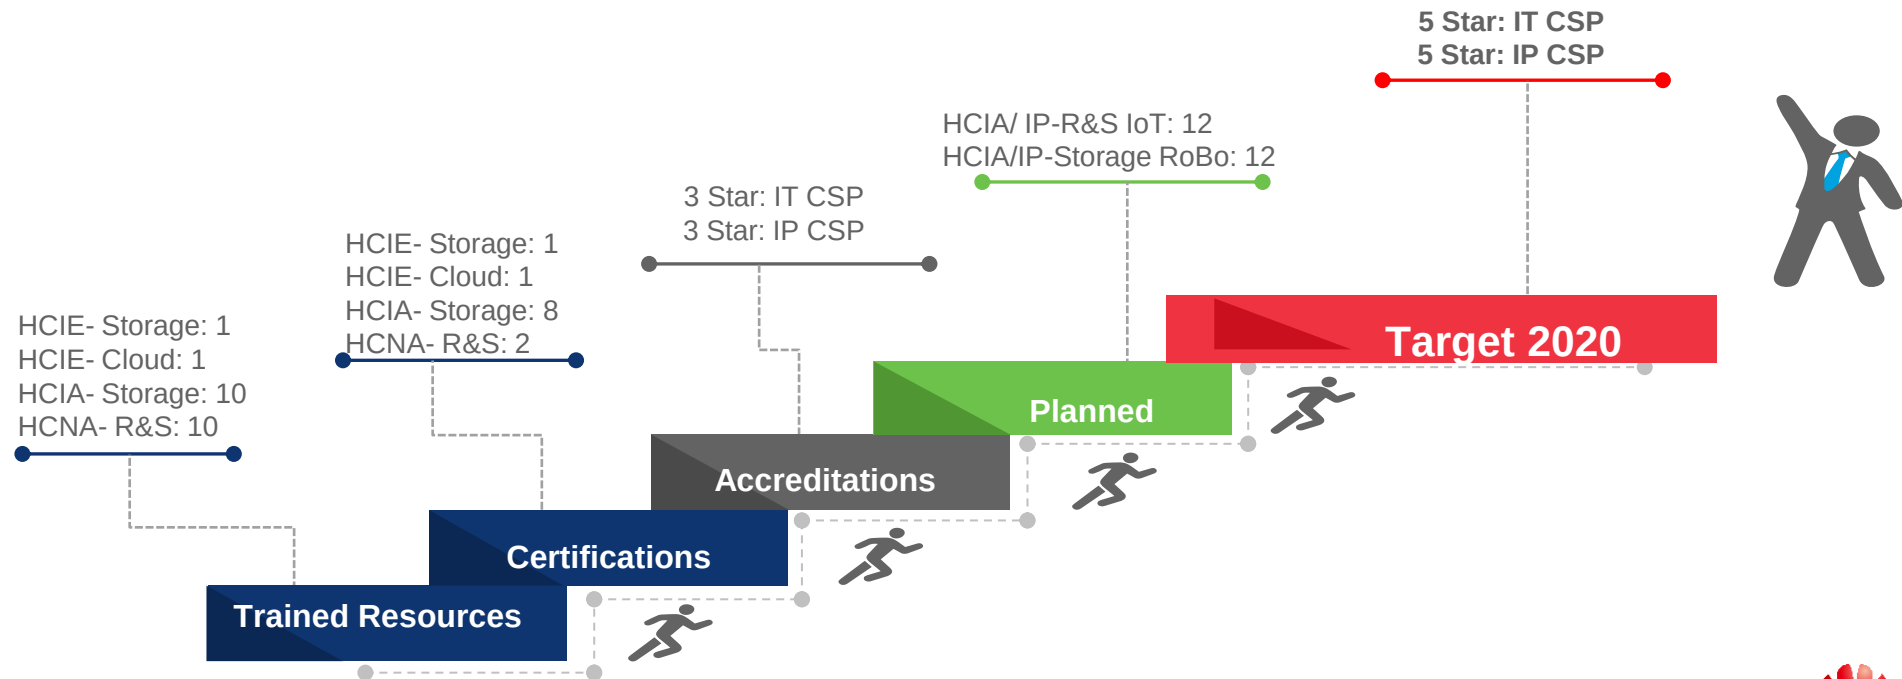

Joint Actions Plan/Execution --Joint Capability Building

Joint Capability Building, is one part partner enablement, to develop trained & certified capability resources on Huawei products though workshops, training & certification programs, generate awareness about Huawei products/solutions across partner teams through technical workshops/webinars/demo/product & solution documents. Likewise, plan technical workshops from partners to Huawei teams to make them understand partner products/platforms/solution capabilities. Joint capability building plan is closely linked with Huawei inside GP KPIs and joint solution development/Design-IN plan.

Detailed plan to be created with talent alliance partner for targeted no. of certifications and CSP level whereas on-demand training & certification program need to be planned & executed based on project specific requirements.

Technical workshops from either Huawei or Partner sides are planned & executed as and when required during joint solution development activities.

Governance Model

Governance Mode, here, is joint governance model for Huawei and GP, which builds a joint work team to fulfill the management role in this relationship. We shall determine Sponsor, Alliance/GTM teams mapping, solution teams mapping, role responsibilities, engagement frequency (such as QBR, monthly meeting, and biweekly meeting), risk management mechanism/ issue escalation channel etc.

Sponsors						Role	Engagement Frequency
	Nickle Asopa (VP, Sales)					Sponsors: Key Stakeholders provide direction for the governance team and make executive decisions when the governance team cannot reach an agreement	Quarterly QBR

Joint Objectives

Joint Actions
Plan/Execution

**Governance
Model**

Gap Analysis,
feedback &
optimization

Quarterly business review (QBR) is one of the key routine engagement, which is used to ensure the routine communication between sponsors. GP manager takes the lead to prepare the QBR meeting slides (quarterly objectives, cooperation progress, key projects, key actions, and help-seeking requests) and involve related teams from both parties.

The QBR has these following functions:

- ✓ QBR, a quarterly communication, which can effectively maintain the relationship between sponsors, to build mutual trust between both executives.
- ✓ As a communication platform, QBR can involve all the personnel related to cooperation and ensure everyone on the same page.
- ✓ QBR reviews the cooperation progress/difficulties of the previous quarter, discusses key projects/pipelines, and sets targets for the next 90 days.
- ✓ QBR can regularly introduce Huawei's latest products/solutions/partner policies to GPs ;
- ✓ QBR helps create an open discussion environment where both parties can share their thoughts on the market/customer trend.

How to do a good QBR?

- ✓ Both parties reach an agreement on the QBR arrangement when communicating with the partner about the annual BP.
- ✓ Both parties create the QBR agenda together, including the time, place, and topic, and notify related personnel of both parties in advance.
- ✓ Both parties prepare the QBR slides together, including the quarterly objectives, cooperation progress, key projects, key actions, and difficulties and help-seeking requests.
- ✓ The best face-to-face communication, better than video conference/telephone conference.
- ✓ Take good meeting minutes and follow-up implementation;
- ✓ As the name suggests, QBR is held once a quarter. However, it is not a rigid conclusion. The key point is to establish the QBR based on the annual objectives of both parties and hold meetings in a regular and rhythmic manner.

Gap Analysis, feedback & optimization

Gap Analysis, feedback & optimization is an integral part of business plan for effective monitoring & control and bring right checks and balances on whether cooperation is moving in a right direction by constantly comparing current situation/progress with agreed upon KPIs. This activity is closely associated with effective governance model practices where cooperation status is checked daily/weekly/fortnightly/quarterly through meetings/status reports among Huawei stakeholders and cadence meetings/status reports with partner stakeholders as part of well-defined communication plan.

The constant follow up on activities and feedback from all such checkpoints feeds inputs to each step for course correction e.g., whether execution of all plans are on right track, issues to be handled, risks to be mitigated, contingency plan to be developed for external/unforeseen risk , relationships in regions to be constantly checked & provide timely support, pipelines to be reviewed & monitored closely, whether plans themselves needs to be optimized, whether objectives have to be re-looked etc. This step enables bottom up and top down feedback loop to better control the cooperation progress though gap analysis & timely optimization for achieving KPIs.

Thank you.

把数字世界带入每个人、每个家庭、
每个组织，构建万物互联的智能世界。

Bring digital to every person, home, and
organization for a fully connected,
intelligent world.

JBP要素2 – Governance Model/QBR

联合商业目标

Governance
Model/QBR

联合解决方案

联合GTM计划

联合营销活动

联合投资计划

季度业务沟通Quarterly Business Review (QBR) 是Governance Model的关键动作之一，保障Sponsor的例行沟通，由GP拓展经理牵头，准备QBR会谈材料（季度目标、合作进展、重点项目、关键动作、困难求助等，并Involve与合作相关的双方团队。

QBR的作用:

- QBR是季度的例行沟通，能有效的维护双方Sponsor之间的关系，建立高层互信；
- QBR作为一个沟通平台，能够involve所有与合作相关的人员，统一合作步调；
- QBR回顾上一季度的合作进展/困难，讨论关键项目的跟进，并为接下来的90天设定目标；
- QBR可以例行向伙伴介绍华为最新的产品/解决方案/伙伴政策，增强伙伴的信任；
- QBR帮助营造一个开放的讨论环境，双方可以分享各自对于市场/客户的思考；

QBR模板

QBR案例

如何做好QBR?

- GP经理在与伙伴沟通年度BP时，就QBR的安排达成一致；
- 创建QBR议程，包含时间、地点、议题等，并提前知会双方的相关人员；
- 准备QBR材料，详细给出季度目标、合作进展、重点项目、关键动作、困难求助等；
- 现场会议>视频会议>电话会议，面对面的沟通效果最佳；
- 简明扼要的会议纪要和跟踪落实；
- **BTW**
- QBR顾名思义，一季度一次，但也不是死板的结论，关键是要建立在双方的年度目标上，有节奏有规律的开展会议。

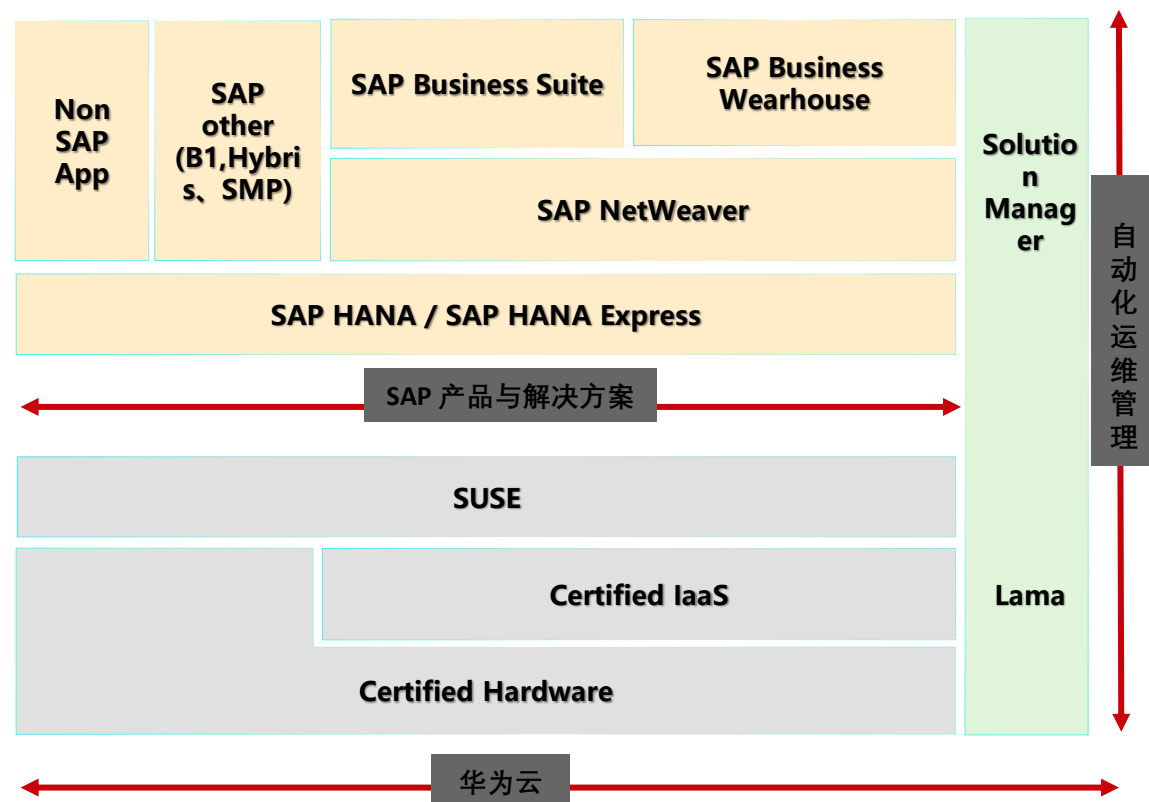

JBP要素2 – 联合解决方案

联合解决方案, 是基于华为与GP各自的优势, 取长补短, 针对聚焦的行业/客户/应用场景, 联合开发offerings。通过差异化的竞争力, 为客户提供独特的价值。

- 联合解决方案需定义华为方产品、合作方产品, 合作方案架构;
- 清晰的阐述清楚联合解决方案的方案架构, 方案的模块构成, 描述清楚各个模块的功能, 特性等;
- 联合方案的工作界面: 华为在联合解决方案中提供哪些产品和解决方案, 华为需要承担的职责; 合作伙伴在联合解决方案中提供哪些产品和解决方案, 合作伙伴需要承担的职责;
- 定义合作细分市场、区域、行业、场景;
- 明确竞争对手, 方案核心差异化竞争力;

方案概览	Solution 1	Solution 2	Solution 3

联合营销活动

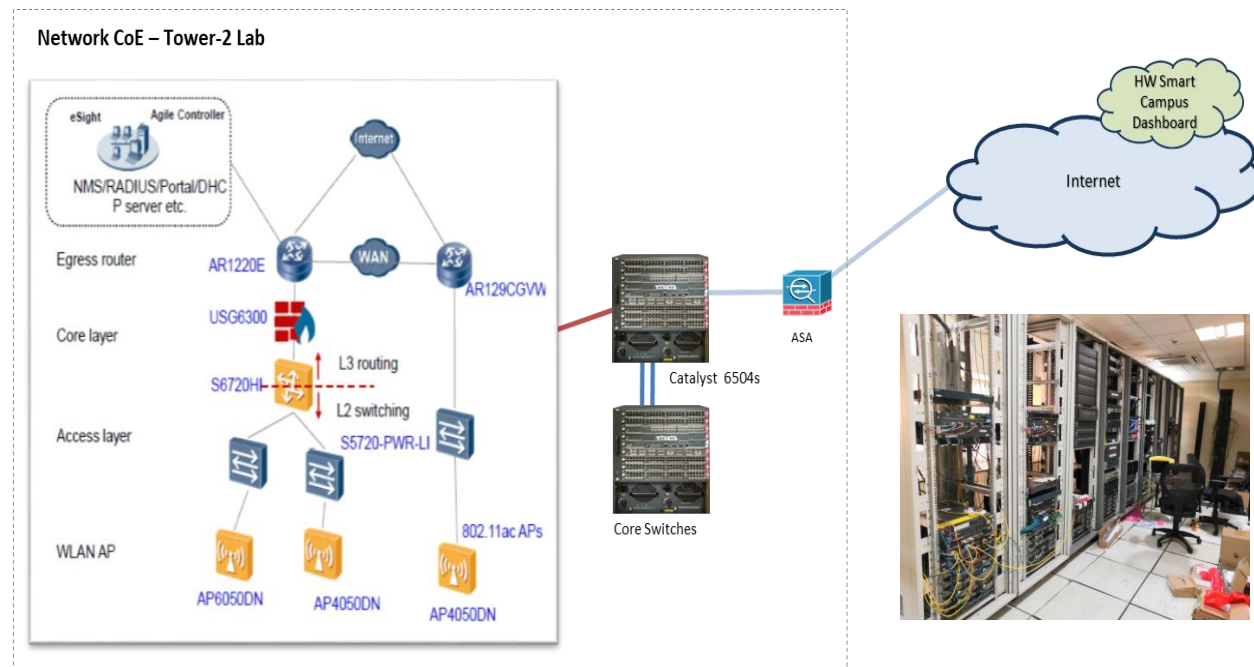

联合投资计划

Center of Excellence (COE) 是GP伙伴与其合作伙伴构建联合解决方案和演示中心的常用方式，类似华为的Openlab。例如，印度GP Wipro/Infosys/Tech M均在其总部园区，与合作伙伴构建了联合COE，既作为联合开发中心，也作为客户演示中心。将华为产品投放到GP总部Lab，构建联合COE，可以持续增加解决方案合作粘性。

Wipro SDx实验室每年接待50+全球客户，是Wipro对外展示其Cloud & Infra产品与解决方案创新的窗口，也是与合作伙伴构建联合解决方案的COE中心。

JBP要素2 – 联合GTM计划

联合商业目标

Governance
Model/QBR

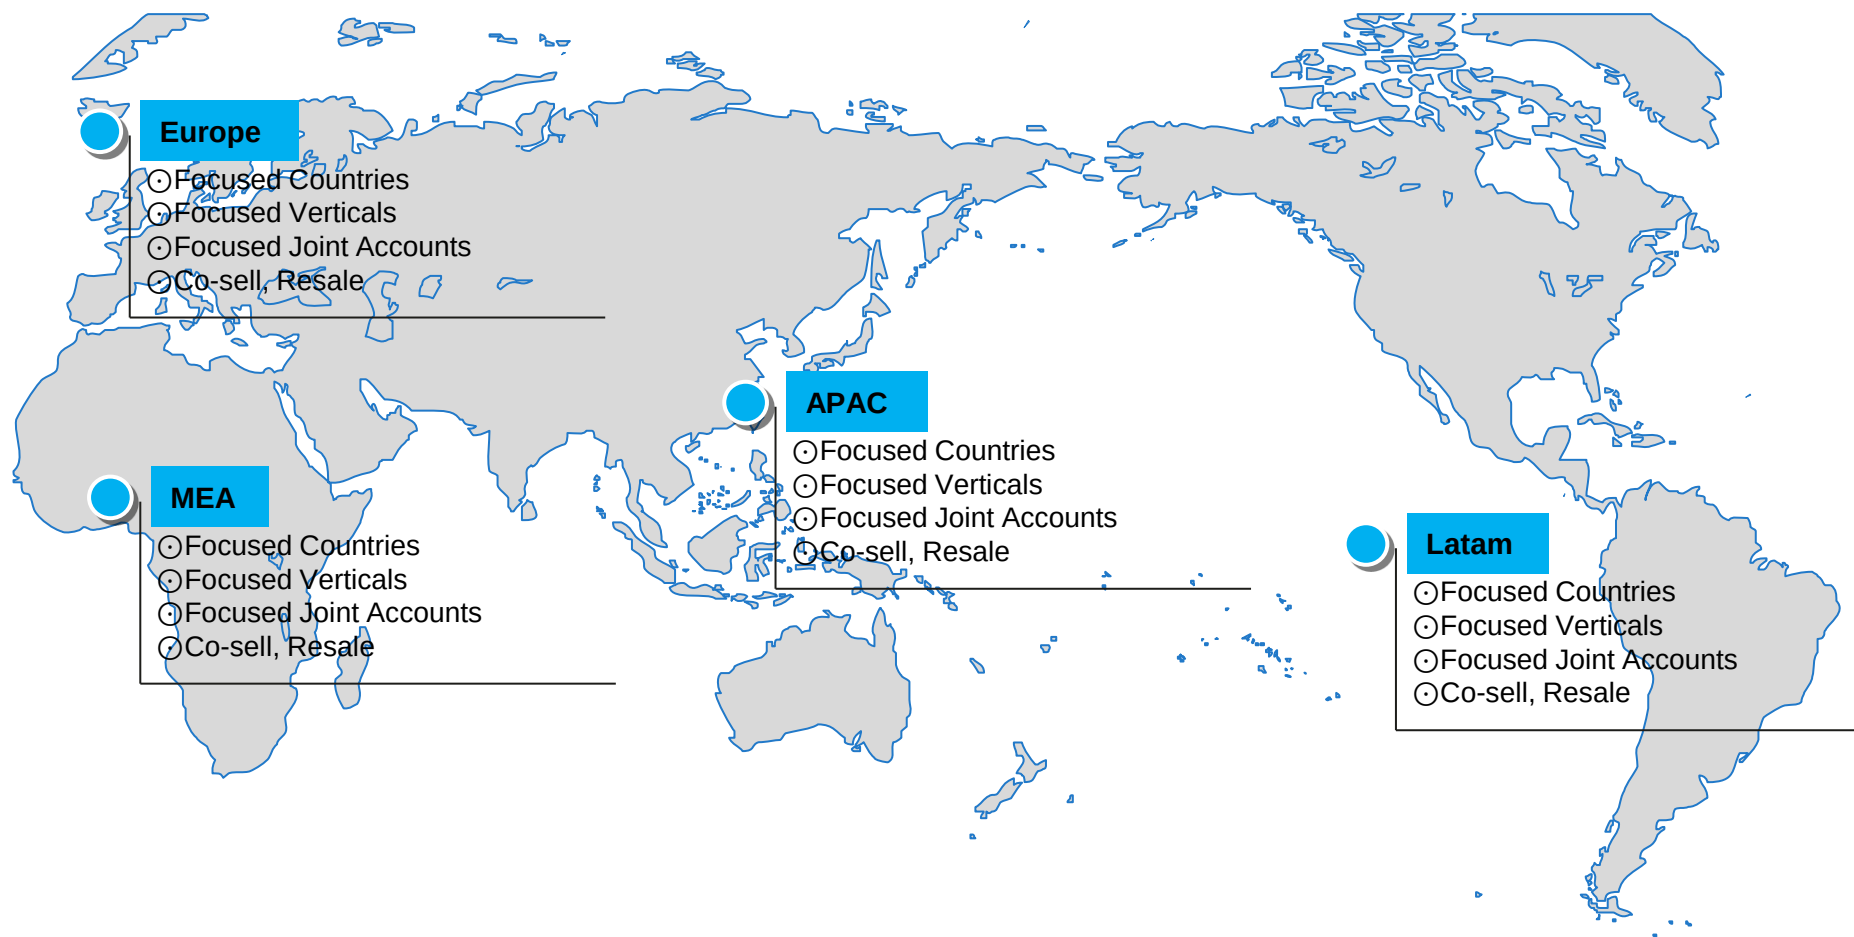

联合解决方案

联合GTM计划

联合营销活动

联合投资计划

联合GTM计划，是基于联合解决方案的价值主张，输出聚焦的区域、行业、合作模式。通过开展区域/国家组织对接，以及客户匹配，输出聚焦客户列表。联合拓展项目机会点。

JBP要素5 – 联合营销活动

联合商业目标

Governance
Model/QBR

联合解决方案

联合GTM计划

联合营销活动

联合投资计划

联合营销活动，可以通过GP伙伴的影响力，有效提升华为在聚焦业务领域的品牌。联合营销活动包括：双方的旗舰用户大会，伙伴大会，行业峰会，区域峰会等。可用如下模板与伙伴一起规划：

Type	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.
Flagship Event			HDC		Wipro WLC				Huawei Connect			
3rd Party Event		MWC			SAP Sapphire						SCEWC	
Partner Event			Huawei Eco-Partner									
Vertical Event		Huawei FSI Summit	Wipro Delivery Summit									
Regional Event											Huawei Eco-Connect	
Digital Marketing	EDM, WeChat, Linkedin, Facebook, Twitter											Reference

JBP要素5 – 联合投资计划

联合投资计划，在年度BP商讨中，确定双方的联合投资计划，主要包括联合MKT费用、联合COE建设的软硬件费用、能力提升费用、人力投入等，以便于提前锁定相关的预算。（GP伙伴的资金，一定要在其年初的预算阶段申请，才能保障后续的投入）

序号	类型	描述	Type	Huawei	Wipro
1	合作联盟伙伴人力投入	合作联盟伙伴侧专职售前或销售人员、联盟经理的人力相关费用；	Alliance Manager	2 dedicated alliance manager.	1 dedicated alliance manager
2	培训赋能	针对合作联盟伙伴，围绕联合产品/解决方案进行售前售后培训的相关费用；	Joint MKT	Invest \$50K as marketing fund, to sponsor Wipro Event and Joint Marketing.	Invest \$50K as marketing fund, to sponsor Wipro Event and Joint Marketing.
3	准入测试	用于与合作联盟业务相关的准入测试费用及设备，如：认证测试费用、华为云代金券场地租赁费、测试咨询费等，准入测试所需要的设备；	Joint COE	Invest hardware worth \$100K for Evaluation in Networking /SDx COE	Software\Engineers required for Reference Architectures & Demo setup creation worth \$100K
4	展示设备	联合创新中心、展示中心、集成验证中心、OpenLab等所需要的设备；	Capability Development	Invest \$50K as capacity building fund to support Wipro practice/delivery teams' enablement.	Invest 20+ engineers from practice/delivery team, to complete Huawei certification.
5	营销活动	针对双方的联合产品/解决方案所进行的营销活动发生的相关费用，如：营销/广告费、品牌活动赞助费、营销支持费用等；	Incentive Fund	Invest FH to support Wipro & Huawei Joint Business in focused regions.	Reference
6	销售激励	合作联盟伙伴侧销售人员的激励费用；
